

# THE BALBOAS

*"Much like their aversion to safe surf rock from the likes of the Ventures, The Balboas take pride in spitting in the face of convention."*

*- Philadelphia City Paper*

*"Many 60's inspired bands strive for technical perfection and fawn-eyed imitation. The Balboas bring an authenticity to their music through conviction and a full intensity attack on the CBGB audience."*

*- Village Voice*

*"The Balboas give a nod to hot rod nostalgia but with a much darker, wilder, slant. From a distance their look is vintage, but up close their look is dangerous."*

*- Cleveland Scene*

*"The Balboas are a fun, untamed, grumbly adventure in miscreant twanging guitar and pounding drums. More gnarl than melody, the Balboas music pumps and grinds with relentless energy."*

*- Las Vegas Weekly*
